

## ABSTRACT

A user interface template for generating a computer user interface through which a user may perform a task. The user interface template includes a window on a computer screen comprising: a first pane displaying two or more view selection links, the first pane having one of the two or more view selection links selected at any point in time; a second pane displaying one content pattern selected from two or more content patterns, wherein the two or more content patterns are associated with the respective two or more view selection links and wherein the one content pattern selected is selected based on the selected one of the two or more view selection links; and a third pane displaying one or more links to activities that are directly related to the one content pattern selected from the two or more content patterns but that are not directly related to the task.
